

Professional Employment Guidance for International Students— Employment Seminar and Job Fair (2026)

I. Purpose of the Event

To assist international students studying in Taiwan in successfully securing employment in Taiwan after graduation, the Ministry of Education is planning to organize three campus job fairs. Enterprises from various industries will be invited to set up recruitment booths, offering diverse job openings and internship matching opportunities to help international students grasp industry trends and enhance their employability. During the morning session, employment seminars for international students will be held, where professional speakers will share common job-seeking challenges as well as key tips on resume writing and interview skills, helping international students improve their chances of landing their ideal positions. In addition, the National Development Council will be invited to provide an overview of the *Act for the Recruitment and Employment of Foreign Professionals* and related new measures. On-site booths will also be set up by the National Immigration Agency (Ministry of the Interior), the Ministry of Labor, the Steering Committee for the Test of Proficiency in Chinese, the Ministry of Economic Affairs' Contact TAIWAN, and the National Development Council's Talent Taiwan Office, providing international students with consultations on regulations related to staying in Taiwan for employment, the Employment Gold Card, and other relevant matters — offering comprehensive support for international students' career development in Taiwan.

II. Organizer: Ministry of Education

III. Executing Unit: Project Office for the Professionalization of Employment Guidance for International Students at Universities and Colleges (Taipei Medical University)
